

Environmental Policy Statement

Central Flooring Services Ltd will conduct its business in such a way as to prevent pollution, to minimise, as far as is appropriate the adverse impact on the environment of its activities, to continually improve its performance against targets associated with its significant environmental aspects and to comply with all applicable environmental legislation.

Our general intentions are to:

- Comply with Clients Site requirements regarding disturbance to the local and global environment, and to the local communities and wildlife.
- Follow the waste management hierarchy for all waste generated, as outlined below.
 - Prevention
 - Preparing for re-use
 - Recycling
 - Recovery
 - Disposal
- Minimise use of energy and raw materials and to adhere to the principles of sustainability.
- To consider the environment in the design of processes and the maintenance of equipment.
- To provide information on the use and final disposal of products.
- Ensure that all employees and suppliers are adequately informed about the Company environmental policy.
- Minimise the use of product related materials and services such as packaging or transport.

Our Employees

In order that the Company can achieve those objectives, it is important that employees recognise their duty, whilst at work and take reasonable care to protect the environment. Employees should also co-operate fully with the Company or anyone else concerned, to ensure that their legal and moral obligations are performed or complied with.

Compliance

Central Flooring Services Ltd shall ensure that all our activities meet regulations and legislation on a national and local level. We will implement and maintain an Environmental Management System to ISO 14001 standards.

Carbon Net Zero

On 27 June 2019, the UK legislated to introduce a target for achieving at least a 100% reduction of greenhouse gas emissions, compared to 1990 levels by 2050. This target is known as the Net Zero Target, and since its passing into legislation, the Government has released the Net Zero Strategy to help drive its achievement. It is therefore, our intention to be Carbon Net Zero by the year 2050.

Signed:

Kyle Stokes, Managing Director
